AMONG GREAT VILLAINIES.

More Harmful Than Open Slanders. Destroying Good Names the Worst of Crimes.

In this discourse Dr. Talmage vigorters of others; text, Romans i, 29, "Full of envy, murder, debate, deceit, malignity-whisperers."

midst of this roll those persons known in all cities and communities and places | a boiling caldron in a dark cave: as whisperers. They are so called beaguse they generally speak undervoice and in a confidential way; their hand to the side of their mouth acting as a funnel to keep the precious information from wandering into the wrong ear. They speak softly not because they have lack of lung force or because they are overpowered with the spirit of genleness, but because they want to escape the consequences of defamation. If no one hears but the person whispered unto and the offender be arraigned, he can deny the whole thing, for whisperers are always first class liars!

Some people whisper because they are hoarse from a cold or because they wish to convey some useful information without disturbing others, but the creatures photographed by the apostlein my text give muffled utterance from sinister and depraved motive, and sometimes you can only hear the sibilant sound as the letter "S" drops from the tongue into the listening ear, the brief hiss of the serpent as it projects its

They turn you on a spit before night shade! Peddlers of Canada this-

Rather than the defamation of good much worse business. The destruction of a man's name is worse than the destruction of his life. A woman came in confessional to a priest and told him set on fire of this hellish spirit will keep | that she had been slandering her neigha whole neighborhood a boil. It does bors. The priest promised her absolunot require any very great brain. The tion on condition of her performing a chief requisition is that the woman penance. He gave her a thistle top have a small family or no family at all, and said, "You can take that thistle because if she have a large family then and scatter the seeds all over the field. She went and did so and came back. "Now," said the priest, "gather up all those seeds." She said, "I can't."
"Ah," he said, "I know you can't. the secrets of the neighborhood all the Neither can you gather up the evil

tion of destroying him, at the end of morning twilight of an everlasting day. the ten years he will be held despicable in the sight of a great many people.

Some people say there is no hell, but there be no hell for such a despoiler of womanly character it is high time that some philanthropist built one! But there is such a place established, and what a time they will have when all the whisperers get down there together rehearsing things! Everlasting carnival of mud. Were it not for the uncomfortable surroundings you might suppose they would be glad to get there In that region where they are all bad what opportunities for exploitation by these whisperers. On earth, to despoil their neighbors sometimes they had to lie about them, but down there they can say the worst things possible about their neighbors and tell the truth. Jubilce of whisperers, Semiheaven of scandal mongers stopping their gabble about their diabolical neighbors only long enough to go up to the iron gate and ask some newcomer from the earth, 'What is the last gossip in the city on

earth where we used to live?" Now, how are we to war against this iniquity which curses every community on earth? First, by refusing to listen to or believe a whisper. Every court of the land has for a law and all decent communities have for a law that you must hold people innocent until tney are proved guilty. There is only one person worse than the whisperer, and that is the man or woman who listens without protest. The trouble is, you hold the sack while they fill it. The receiver of the stolen goods is just as bad as the thief. An ancient writer declares that a slanderer and a man who receives the slander ought both to be hanged—the one by the tongue and the other by the ear-and I agree with

When you hear something bad about your neighbors, do not go all over and so it will mean that the Negro will ask about it, whether it is true and supersede us, as the French-Canadians scatter it and spread it, You might as | are the old New England stock, and inwell go to a smallpox hospital and take | herit the land of our fathers. New England's Crime.

is not the greatest calamity that the fu-

The loss of her cotton mill industry

ture has in store for New England. Her greatest calamity is to be found in her exceedingly low birth rate. An average of about two children to the family is the rule among the old New Englanders. Observers of the decline of the old New England stock as a result of this low birth rate declare that it is only a question of time when the prolific inflowing French-Canadians will one day possess New England's rural districts, while the children of the Irish and other foreigners will possess its cities. There is no doubt about the correctness of this position. New England is passing, and in a few more decades a new population will have supplanted the old. This is a patent fact to all but those who dwell within the sacred precincts of New England, but it will become plain to them even in a few more years. In curtailing the birth rate the people of New England have committed a great crime against their section, and as a punishment their inheritance will be taken from them and given to others. The impending fate of New England should be a warning to us of the South. We should arnestly pray that the Malthusian ontagion may not invade our beauitnl So toudth lanany great extent for many years to come, for should it do Beside that, at your family table el- seen. Cow Thieves Captured.

The Augusta Herald says: "Charley Jones, colored, was arrested Wednesday afternoon by Sergeant Norris of the Augusta police force and Officer Webb. They arrested him at the instance of Detective G. B. Kittrell of Orangeburg county, S. C. The detective arrived here yesterday and had a confer ence with the police. He said he was after Charley Jones, who had been stealing cows in Orangeburg county and who was wanted for the murder of a man some years ago. Sergeant Norris and Officer Webb took the trail. They arrested Jones out near Railroad avenue about dusk. He was sent to the station and is there now. He denies the charge. This morning another party, who is said to be concerned in the cow stealing case with Jones, was arrested by Officer Webb at about the same place where Jones was apprehended. His name is nothing less than Simon Washington Hampton. Both are charged with cow stealing, but the first one captured also has the charge of murder overhanging him. They will be taken to South Carolina. There is a bit of uncertainty about the man Jones being the one wanted for murder, but he will be taken to Orangeburg county and the matter fully investigated."

Corn Crop Ruined.

The Columbia State says Capt. D. J. Griffith, superintendent of the penitentiary, returned from the State farm Tuesday and tells of a bad state of affairs on the bottom lands of the De-Saussure farm. The young corn on 250 acres has been completely destroyed by worms, bugs and other pests. He brought back a number of specimens of stalks ruined by the depredations of the worm. The stalks are eaten almost through and the leaves are shred-A few acres on the Reid farm have suffered in like manner and a number of neighboring farmers state that their bottom lands have been visited by the pests. The uplands have fared better, and for this reason Col. Griffith thinks the vermin germanated

Marriage in the Philippines The Negritos have a curious marriage custom, says Self Culture. When a young man makes known his preference, the young woman flees from him, while he gives chase and catches her in his arms. She struggles and frees herself, whereupon the chase is renewed, and so on until he has caught her the third time, when she yields, and he proudly leads her back to her father's dwelling. The father and mother of the bride-elect then meet with the contracting parties. the latter kneeling side by side. The father then takes some water in a cocanut shell and throws it over them. Continuing the ceremony, he takes each by the neck and bumps their heads together several times, and they are then adjudged to be duly married. A wedding tour of five days' se journ alone in the mountains follows, ...ter which they take up their abode as staid citizens among their friends.

A Thoughtful Act. Governor McSweeney has obtained through a Chicago concern a very handsomely bound scrap book which

contains clippings from all newspapers in the United States that had anything

Educational Conference The educational conference recently

ticipated in the proceedings has left its presiding officer was Dr. J. L. M. Curry and a list of the leading spirits prestion. There was no evidence of any sectional feeling and those who came from the north freely recognize that the chief part of the problem of southper and thorough education of the white race as the independent and permanently dominant race. Most of the addresses and papers, says the Augusta Chronicle, dealt with only one phase of the broad subject of education in the south, but four of them handled the entire subject with the greates ability and calmness. These were the addresses made by Dr. Curry, President Wilson, Dr. Dickerman, and President Baldwin. These distinguishedd the conference, it is believed, above any simi'ar body that has met in this country for a generation, if not for the entire period of its history.

Dr. Curry gave a review of the en-tire field. He showed what the south had been and what it is, in so far as to illustrate his claim that the present condition dates back to the end of the war. He gave the following data: In 1860 the northern states had a population of 19,000,000, 205 colleges and universities, with 1,407 professors and 29,044 students. In the same year the southern states had a population of 8,000,000, 262 colleges and universities, with 1,488 professors and 27,055 students. These are the figures of the last census before the war. At the same time the north was spending for its universities and colleges \$1,514,688 and \$4,663,749 for its academies yearly; and the south was spending \$1,662,419 for its colleges and universities and \$1,328,127 for its academies yearly. The showing is tremendously in favor of the south, and Dr. Curry said it fully explained the fact that before the war the great leaders of men-the Washingtons, Jeffersons, Madisons, Henrys, Clays, Taylors, Scotts, etc .- were found in the south, the product of the southern school system. With the war everything succumbed to the general disaster. Now the northern colleges and universities have a productive fund of \$102,721,-451, while the southern colleges and universities have a productive fund of only \$15,741,000. Under such conditions, he said, it is no wonder that the south finds herself utterly unable to keep up with the rapid progress of the northern states. He also spoke of the great work that the south has done for education since the war. In thirty years it has spent \$500,000,000 in educational work, \$100,000,000 of which went for the Negroes, an amount largely in excess of their just proportion, if the sum had been equally divided between the two races on any basis whatever. Good systems of public schools, which Dr. Curry declared to be the southern state. This he declared to be the grandest work ever accomplished by any people in so short a time after so great a

An Unqualified Success.

The News and Courier, of Thursday says: "Col. Asbury Coward, superintendent of the South Carolina Military Academy, returned to the city from Orangeburg Tuesday night, and was yesterday asked about the encampment and the prospects of the next session of the Academy. Col. Coward said that unquestionably the visit of the cadets to Orangeburg had been one of the most pleasant incidents in the history of the school, and he was inclined to think one of the most useful. The people of Orangeburg were untiring in their efforts to make the stay of the cadets and officers agreeable and they succeeded most admirably. The cadets, by their soldierly conduct and gentlemanly deportment, he was sure, had made an excellent impression upon the people of that section, and it was thus mutually beneficial. In talking of the next session Col. Coward, said that the future of the Academy sound very bright. There will be nine beneficiaries admitted at the next term, and these will come, one each, from the following counties: Aiken, Anderson, Clarendon, Greenville, Horry, Newberry, Orangeburg, Pickens and Charleston. Blanks of application to enter competitive examination, with sheet giving necessary information, can be obtained from the respective county superintendents of education. All applications, fully and clearly made out, must be in the hands of the chairman, Col. C. S. Gadsden, by August 1. Besides these there will be one vacant scholarship in the disposition of the City of Charleston. Information concerning this scholarship can be obtained from the city authorities.'

Anti-Trust Delegates. Wednesday the governor received a letter from Chicago announcing the postponement until Sept. 13-16 of the in the spring freshets which flooded the | proposed conference on combinations and trusts that was to have been held in that city this month. The governor was asked to appoint seven delegates to the conference to represent this State. This he did, announcing the

THE CROPS AND WEATHER.

What the Department of Agriculture The Keeley Says About Them.

The following is the weekly bulletin of the South Carolina section of the climate and crop service of the United | CHARLESTON, S. C. States weather bureau issued last week by Director Bauer: Columbia, S. C., July 4, 1899.

The week ending July 31 averaged lightly cooler than usual, especially over the western portion of the State, during the latter half of the week, with minima temperatures generally below xty degrees.

There were numerous showers from June 27th to the 30th, heavy and well distributed over the eastern half of the State, and light over the north central Treatment as administered at the above and northwestern portions, where the rainfall was poorly distributed, and Keeley Institute. where more rain is needed, except over very limited areas.

Over the areas of deficient rainfall. crops are not making satisfactory growth, but over the eastern portion of the State generally, they are up to, or above, their average condition on July 1st, and are generally very prom-

Worms continue to destroy corn; but worms to injure tobacco; and caterpillars to devastate rice; while lice on cotton have appeared at various points. Cotton continues to make seasonable growth and is blooming and fruiting freely, with no reports of shedding. The plants are generally undersized but vigorous and healthy. The nights have been too cool latterly for the best development of sea island cotton. Corn, is in a few sections, very prom-

ising, but on the whole it is below its seasonable average condition. Wire worms are destroying old corn at many points. Corn is being laid by. Tobacco varies greatly in condition. with many reports of injury by bud worms. In places the need of rain is urgent. Cutting and curing is as yet making slow progress, although some inferior grades have been sold in open

Late reports on wheat confirm earlier estimates of small yields. The same is true of spring sown oats.

The bulk of the rice crop is very promising, but caterpillars continue to devastate late plantings, and fresh water for flooding is not available in

places. Melons are ripening but do not promise a large crop. Many sweet potato lips have been set out during the week. Sugar cane, sorghum and gardons show some improvement. Peas are being extensively planted, and coming up to good stands. Haying is in progress on the coast meadows.

Illustrated by a Fable. There is a touch of humor in the situation anent the Samoan kingship that reminds one of the oyster in the fable. Of that famous bivalve it is related that it was discovered on a sea beach by two wayfarers. One of them stooped and picked it up, but the other most original and highest idea yet con-ceived by the American people, had swallowed the juicy morsel inside, and, the oyster on the beach, the ownership of which the three commissioners of the powers have settled by swallowing, giving Malietoa Tanus and Mataafa a shell each.

> Killed by a Woman. A terrible tragedy was enacted on Monday last on the shore of Grand Lake, immediately in the rear of the Macfeat's village of Charenton, La., in which Thomas W. Webb was shot and instantly killed by Mrs. W. F. Smith. It appears that Smith and Webb were engaged as partners in gathering and preparing moss for market, and in the division of the moss Webb used very insulting language to Mrs. Smith, who was present, whereupon she seized a dobule-barreled shotgun loaded with buckshot near at hand and discharged the contents of one barrel into the breast of Webb, killing him instantly. Deputy Sheriff Pecot buried the remains of Webb and arrested Smith and ngrapher Comulbia, S C forters his wife and they are now in jail at Charenton, La.

Blown Over a Fence. cyclone struck New York State near Glens Falls Wednesday afternoon. Large trees were up-rooted and other damage was done. James Nesbitt, a farmer living east of Lake George was driving, was blown, with his horse and buggy from the road over a fence and into a field. He was injured so severely that he died.
